Creaty loopless / loopless twin

Simple and smooth operation with one hand. A new "loopless" system is debut for Creaty! This design is also designed to ensure the child-safety.

Hardware / Creaty Loopless Twin   Style / Plain + Plain

Easy-to-understand operation for anyone, in which the curtain rises only by the amount of pulling the grip. The operation section is loopless, compact, simple and clear.

Pulling the operating grip down will cause the curtain to rise by the amount of the pull. When lowering, pull lightly to descend automatically.

《 You can see" how to operate Creaty Loopless"

POINT.2

No looped operation chains or cords, so it is safe even in home with small children. It opens and closes up and down, so it is also effective in preventing mischief of pets.

Child Safety

Hardware / Creaty Loopless Twin
Style / Plain + Plain

No looped operation cord is available, so it is safe to use.No looped operation cord is available, so it is safe to use.

POINT.3

With a loopless type, you can smoothly operate it with one hand, even while holding the laundry basket.

Hardware / Creaty Loopless Twin
Style / Plain + Plain

It is also possible to raise the front and back curtains at the same time.

Available Style

Twin			Single

Optional parts

Easy maintenance & comfort operation with the addition of convenient components.
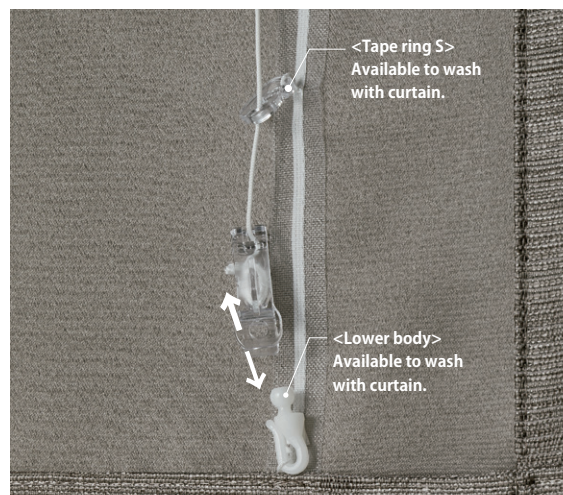

Cord Adjuster NS
(Safety type)

Standard equipment

Cord Adjuster NS separates itself while the lift cord is wound so that the curtain can be removed easily and get wash. The material is strengthened to solve the trouble of washing.
By changing the material at the bottom part, the curtain can now be washed without removing parts.

※It does not support Peacock, Austrian, Austrian for bay window, or Double-sided (optional).
※In the case of the Creaty Cord twin, the rear fabric must be removed by unwinding the lift cord.

<Tape ring S>
Available to wash with curtain.

<Lower body>
Available to wash with curtain.

Separate the cord adjuster NS. The white parts at the bottom can be washed while attached to the curtain body.
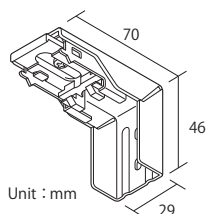

NEW ITEM

Long bracket
The curtain on the sheer side does not hang on the window frame and is smoothly lowered.

70

46

Unit：mm

29

[For regular brackets]
This may interfere with the window frame.

[For long brackets]
Smoothly descends, not to the window frame.
※Normally, the 12mm product is in front of the bracket .
