Bracket	Wheel	Aluminum
	Plate	Steel

Bracket Interval and Allowable Curtain Load

Rail Cross Section (in mm)

Variety of Optional Components available with Theatrac

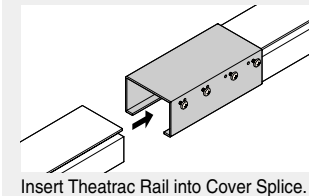

Splice

2 types of outer Splice are available.

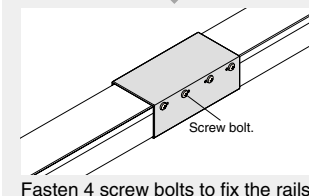

Cover Splice

Outer-type splice enables two rails to joint firmly.

Insert Theatrac Rail into Cover Splice.

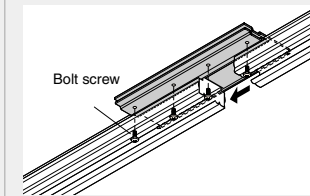

Fasten 4 screw bolts to fix the rails.

OT Splice

Two rails are jointed with OT Splice on the upper side of rails.

Sandwich the upper side of two rails with OT Splice

Roller

Three different types of rollers allow you to hang curtains for various places.

Swing Roller with/Ring

Allowable load 10kg

Ring rotates to adjust curtain for better appearance.

Swing Roller with/Hook

Allowable load 8kg

Use to hang Deco-ring style curtain or sheet for a heavy duty use.

Roller

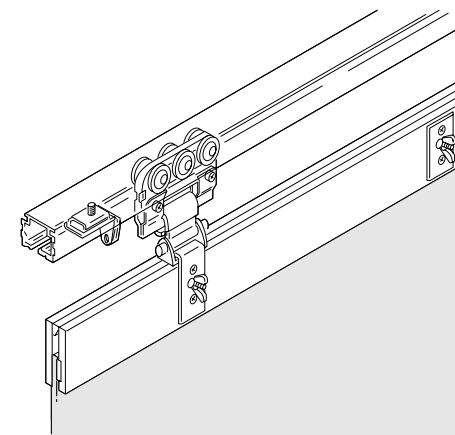

Allowable load 4kg

Neatly hold curtain and perform smooth drive.

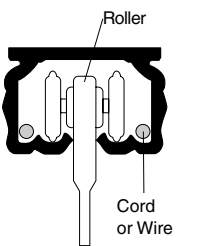

A key feature of Theatrac Roller, Swing Roller with Ring, and Swing Roller with Hook; Ball Bearing enables them to perform easy and smooth operation of heavy curtain.

Carpets Display with Hanger Rollers and Carpet Clipper

With Hanger Rollers and Carpet Clipper, carpets are displayed beautifully without being damaged. Allowable load 15kg

For smooth operation, Theatrac is designed with two grooves as separate lanes for rollers and traverse cord.

Motorized operation is also available.

Motorized operation is recommended for heavy curtain.
