

Ceiling Curtain Rail

Ciero Line Ciero Cloud Ciero Mini

- Minimal design curtain rail that can accentuate the beauty of fabric.
- Perfect solution for wave style by using patented curtain stopper and wave components.
- Invisible type (Line), less visible and easy installation type (Cloud), and compact type for curved window (Mini) are available.

Ciero Line and Ciero Cloud won the Good Design Award 2019.

Ciero Line / Ciero Cloud / Ciero Mini

What is Ciero?

Avoid Wasted Elements

We scrape off not only operation noises but also all kinds of unnecessary components in the look. Ciero series maximize the beauty of curtain fabric in the open space that has wide window or high ceiling.

Design

A design that blends into the ceiling as if it doesn't exist.

Functions

It provides a high level of operability, quietness, and maintainability, especially under the condition of large opening and tall window.

Wave Style Curtain

We also propose a curtain style that creates beautiful waves optimal for curtains from the ceiling to the floor.

Ciero Lineup

Ciero Line

- The best rail that blends into space
- When embedded in the ceiling, a design with a flange (collar) so that the ceiling can be shown beautifully.

Ciero Cloud

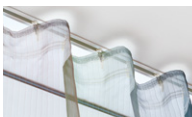

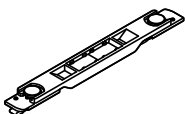

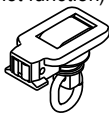

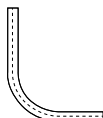

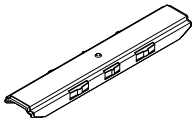

- Pursuing a design fits flat on the ceiling with a direct attachment, even in environments that cannot be embedded.

Ciero Mini

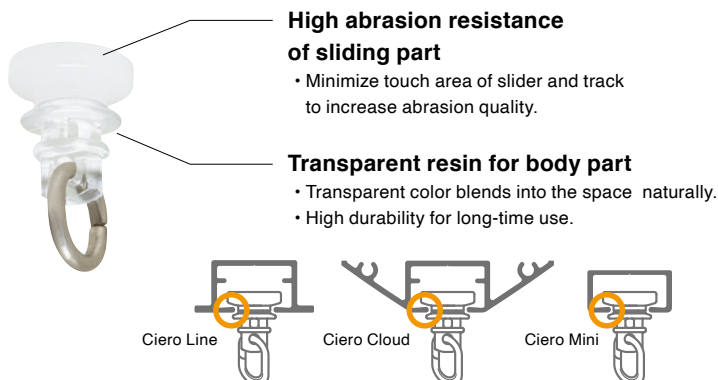

- We hold down function and realize minimum size.

Ciero Series Overview

Performance	Features		Ciero Line	Ciero Cloud	Ciero Mini
	Installation Method		Ceiling embedded attachment 	Ceiling direct attachment 	Ceiling direct attachment 
Maintainability	The slider can be inserted and removed even after the rail is attached. (End Cap Square only)	Possible to add the slider			—
Design	Slider with excellent design and silence	Clear Slider 			
	Removable add on stop	Stop 			
	Wave curtain support (When using the wave style set)	Wave Curtain 			
Convenience	By using the Curtain Stopper, the opening of the window is widened, which makes the room brighter.	Curtain Stopper 			—
	The curtain can be opened and closed from both sides of the rail.	One-way MG Slider (Multi magnet function) 	 (Option)	 (Option)	 (Option)
Functionality	Available to install to corner windows (120 mmR, 180 mmR)	Curve processing 	—	—	
	Possible to joint	Joint 			

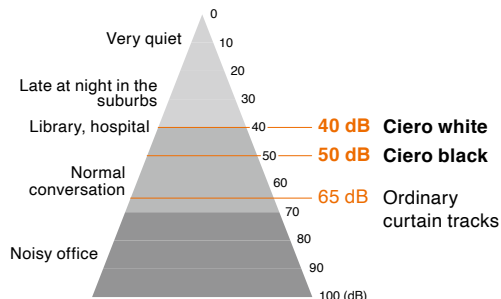

Ciero Series' Unique Feature

Smooth and Quiet Sliders

1 Quiet

Reduces the noise when opening and closing the curtain.

2 Durable and Sustainable

High abrasion resistance material is used for sliding part: keep operation smoothness for a long time compare to ordinary curtain tracks.

Track	Allowable Curtain Weight	Material	New One	After 10,000 times
Ciero white	10 kg (22 lb)	HDPD	0.4 kgf (.88 lbf)	0.4 kgf (.88 lbf)
Ciero black	10 kg (22 lb)	HDPD	0.5 kgf (1.1 lbf)	0.5 kgf (1.1 lbf)
TOSO standard track with roller	10 kg (22 lb)	Polyethylene	1.06 kgf (2.3 lbf)	2.98 kgf (6.6 lbf)

3 Light and Smooth

Smoothness on the joint part, no jam at the joint part.

Track	Allowable Curtain Weight	Material	Operation Weight
Ciero white	10 kg (22 lb)	HDPD	0.6 kgf (1.3 lbf)
Ciero black	10 kg (22 lb)	HDPD	0.7 kgf (1.5 lbf)
TOSO standard track with roller	10 kg (22 lb)	Polyester elastomer	0.7 kgf (1.5 lbf)

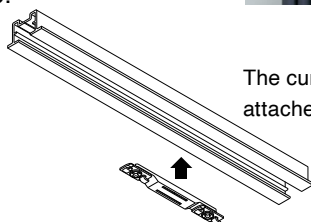

Easy Maintenance — Detachable End Cap

After recessed installation or installing the track close to the wall, it is difficult to insert sliders because of no space to do it. Detachable end cap gives solution for the problem. Enables to insert sliders for maintenance.

Curtain Stopper (Option for Ciero Line and Ciero Cloud) Suitable for Wave Style Curtain

Stop curtain wherever you want.
Stop the curtain pushing back caused by fabric thickness. (No need to use tiebacks)
Recommended for Wave Style Curtain that is easy to push back to close.
Patent pending by TOSO.

The curtain stopper can be attached to the rail groove.

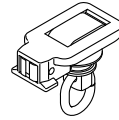

Go to instruction movie of TOSO Curtain Stopper.

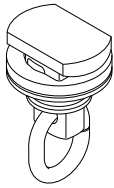

One Way Magnet Slider

Insert One Way Magnet Slider to both side of track, and curtain can be open from both side.

This function makes you comfortable entering and exiting the room.

Stop

Available to install or remove with rails attached

Since the Cap and Stop are separate parts, available for single-sided and multi-magnet specification. Unnecessary Stops can be removed without tools. (Even if you open the curtain on one side, it fits neatly without any pressure.)

Wave Style's Unique Features

- The Wave Style creates a feeling of naturally flowing fabric.
- The curtains are draped in gentle waves about 1.5 times the width of window, resulting in a continuity of pattern and texture.
- There is a natural wave in the curtains at intervals of 80 mm (3.1") or 60 mm (2.4").
- With its tape and accessories, it creates natural, elegant symmetrical waves.

*Pleating cord keeps waves evenly shaped, making the curtain rich and stylish.

Wave Style Structure

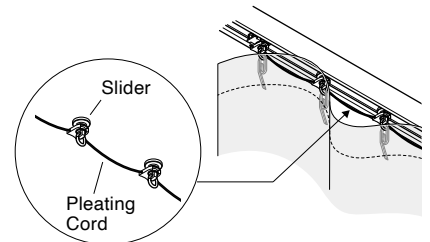

Even number of hooks used in all cases.

Rollers spaced at 80 mm (3.1") or 60 mm (2.4") intervals to produce waves.

Both left and right sides of curtains always end in troughs.

*To make appealing wave style curtains, use Flat Tape and Pleating Cord.

*Fabrics with soft weft threads and stiff warp threads such as plain weaves are advisable.

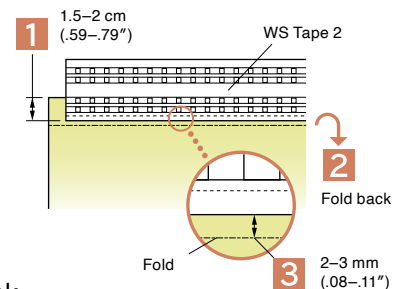

How to Sew Curtain with Flat Tape

- 1 From the top edge of the curtain front side so that it overlaps about 1.5 to 2 cm (.59 to .79"). Place WS Tape 2 and hang a sewing machine.

*There is no top or bottom on the tape.

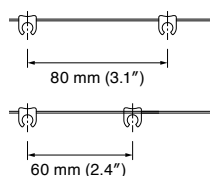

- 2 Bend the curtain cloth to the back side, sew a sewing machine.

- 3 The curtain fabric is a few millimeters away from the WS Tape 2. If you fold it at the position, it will be 10 mm (.39") above from under the hook.

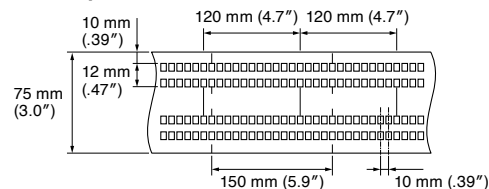

Wave Style Components

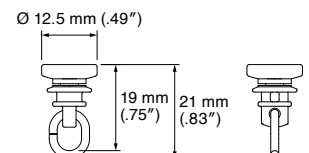

• Pleating Cord

• WS Tape 2

• Slider

Curtain Wand

To keep the Wave Style, the Ciero Series is available with a Curtain Wand that attaches to the leading MG Slider. It is easy to operate high curtains and thick/heavy curtains, and prevents stains and wrinkles because the curtain fabric is not directly touched.

Curtain Wand / White (steel)

Curtain Wand / Clear (resin)

Curtain Wand White and Clear are SIAA safety standards compliant for antiviral performance. It reduces the number of specific viruses on the product.

The SIAA mark is displayed on products that have been evaluated according to the ISO 21702 and ISO 22196 methods, and whose quality control and information have been disclosed under the Antimicrobial Product Technology Council guidelines.

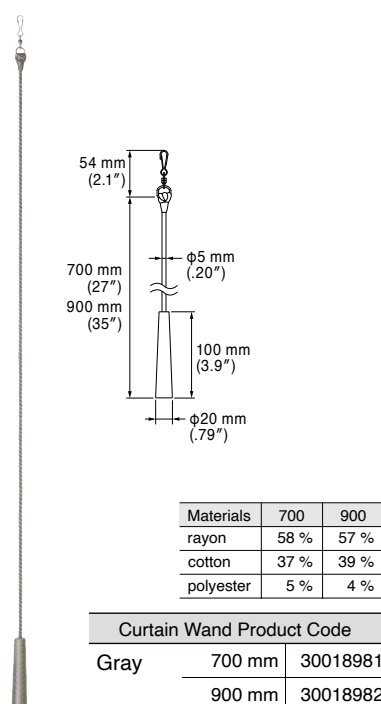

Anti-virus processing

- This product is not a pharmaceutical product.
- It uses antiviral materials that meet the safety standards of SIAA.
- This product conforms to SIAA safety standards.
- Antiviral processing is not intended to treat or prevent diseases.

Antibacterial processing

- This product is not a pharmaceutical product.
- It does not inhibit the growth of all bacteria.
- This product uses antimicrobial materials that meet SIAA safety standards.

Curtain Wand / Gray (rope type)

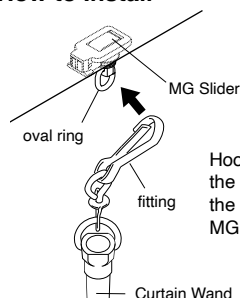

How to Use the Curtain Wand

Photo is the White (steel).

How to Install

Hook the fittings of the Curtain Wand to the oval ring of the MG Slider.

Approximate Curtain Wand Length

Rail height position	2,200 ~2,400 mm	2,000 ~2,200 mm
Wand length	900 mm	700 mm

*In case used by a person with a height of 155 cm
