

Nexty

- Nexty—an advanced curtain track offering outstanding combination of quality, functionality, and design features.
- A curtain track that emphasizes refined design in addition to easy installation and outstanding functionality.
- Rich color variation can choose the one which of match the interior design.
- It can be used for wavy styles that bring out the natural texture of the fabric.

Nexty's Unique Feature

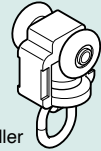

Smooth and quiet rollers

The key — advanced roller function

Noiseless Wheel-type Roller

Reduces the noise when opening and closing the curtain.

Nexty Roller

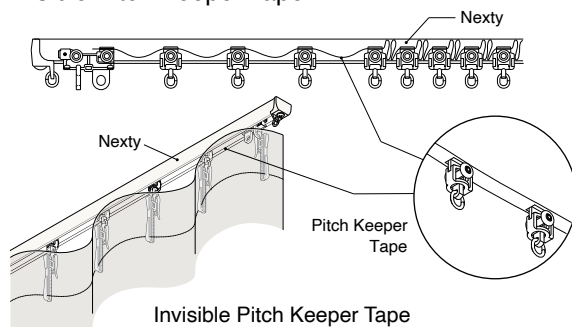

Nexty Rollers give beautiful expression to curtain folds

Freely revolving eye bolts allow curtain folds to neatly settle into each other.

Smart Wave Curtain System

Invisible Pitch Keeper Tape

Invisible Pitch Keeper Tape

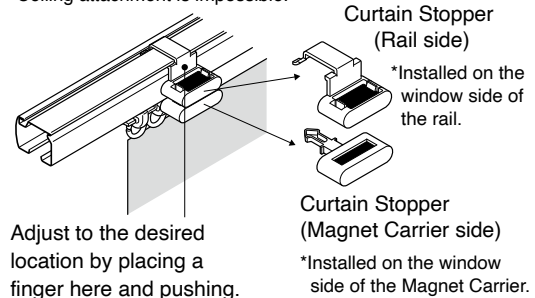

By connecting the roller and the pitch keeper tape, it can create a beautiful curtain wave. The pitch keeper tape fits inside the track for a clean look.

Curtain Stopper (Option)

The Curtain Stopper (PAT.P) makes it possible to keep curtains open to their widest extent. Even curtains that tend to close because of the material of the curtain fabric.

*Ceiling attachment is impossible.

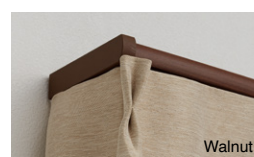

End Cap M—Curtain returns that excel by design

With the End Cap M design, the end cap is installed by inserting from the front. That means easy rail installation even right up against a wall or air conditioner.

*Rail must be installed 6 mm (.24") from the back wall.

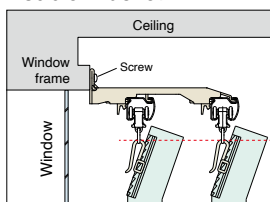

Return specifications include designs that shut out external light. Cap M come in two colors —silver and pearl beige.

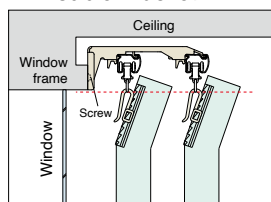

Pearl Beige

LT Double Bracket / LT Extra Single Bracket

Double Bracket

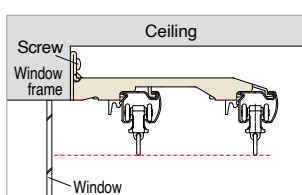

LT Double Bracket

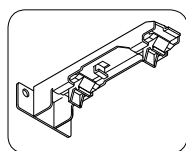

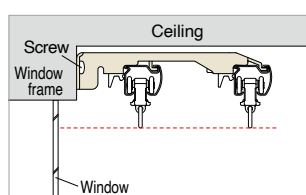

This bracket hangs the curtain higher than regular brackets. Because the top of the curtain is positioned higher than usual, very little light filters into the room. A screw hole is provided on the bottom of the bracket to enable easy installation on a window frame close to the ceiling.

NT Double Bracket

Double Bracket

NT Double Bracket

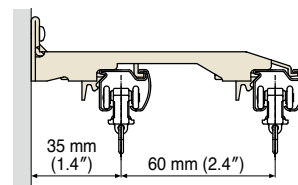

NT Double Bracket is suitable for the narrow space or in the case to be attached to the window frame, because the screw can be fixed just beside the Bracket body.

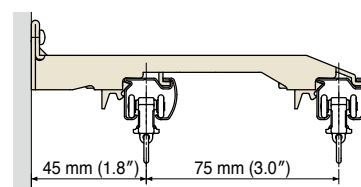

Moreover, the curtain hanging position is up, reduce the light leaking.

Extra Double Bracket

Double Bracket

Extra Double Bracket

The Extra Double Bracket features wider spacing between rails. Additional space prevents interfering contact between curtain folds and window frame, and between the two sets of curtains.

Multi Block

Multi Block is a convenient tool: by mounting the Multi Block to the existing curtain rail bracket, the installation of the blinds, etc. behind the curtain is possible. Also, reduce the hole opening in the wall. Various options around the window is spread.

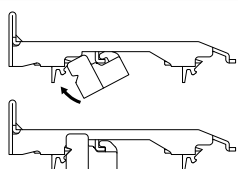

Allowable Products for Multi Block

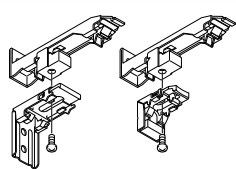

- Roman Shades
- Pleated Blinds
- Venetian Blinds

Attachment of Multi Block

- 1 Mount the Multi Block to window side of the Nexty rail.

- 2 Attach the Bracket of window treatment products to the Multi Block and fix with the supplied screws from the bottom.

Cover Top II (Option)

Sept. 2016 RENEWAL

Installing the Cover Top II stops air flow and external light from above curtains and helps to lower heating and cooling bills. Covers come in either light brown, dark brown or white. Installing a Cover Top II greatly reduces the amount of external light leaking in over the top and from around the sides of curtains.

*Cover Top II does not block all external light.

*1 Maximum load of Roman Shade is 5 kg (11lb). When ordering of twin, please specify the Ceiling Bracket.

*2 In the case of Pleated Blind, there is a limit of ratio, H:W, depending on the product type and screen.

*3 Maximum allowable area of the Venetian Blind is 7 m² (8.4 yd²).

*4 In accordance with the necessary bracket number of window treatment products, please arrange Multi-Blocks and Brackets of the Nexty.

*The weight of window treatment products should be manufactured up to 10 kg (22 lb) within the above-mentioned corresponding type size.

*If the curtain volume and style on the room side is thick, the Blind and Roman Shade are interfered sometimes when they are lifting up and down.

Available Bracket for Multi Block

Curtain Wand

To keep the Wave Style, the Nexty is available with a Curtain Wand that attaches to the leading MG Slider. It is easy to operate high curtains and thick/heavy curtains, and prevents stains and wrinkles because the curtain fabric is not directly touched.

Curtain Wand / White (steel)

Curtain Wand / Clear (resin)

Curtain Wand White and Clear are SIAA safety standards compliant for antiviral performance. It reduces the number of specific viruses on the product.

The SIAA mark is displayed on products that have been evaluated according to the ISO 21702 and ISO 22196 methods, and whose quality control and information have been disclosed under the Antimicrobial Product Technology Council guidelines.

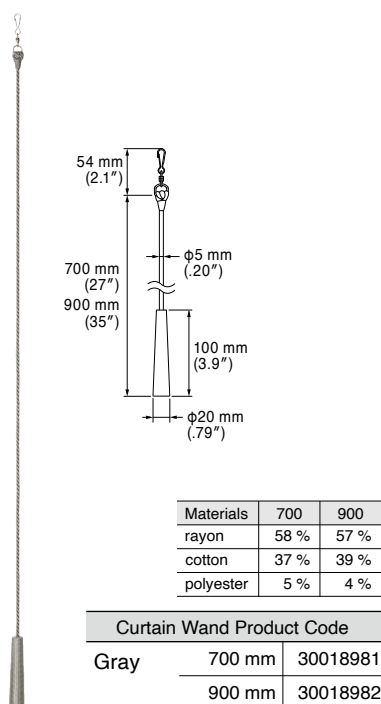

Anti-virus processing

- This product is not a pharmaceutical product.
- It uses antiviral materials that meet the safety standards of SIAA.
- This product conforms to SIAA safety standards.
- Antiviral processing is not intended to treat or prevent diseases.

Antibacterial processing

- This product is not a pharmaceutical product.
- It does not inhibit the growth of all bacteria.
- This product uses antimicrobial materials that meet SIAA safety standards.

Curtain Wand / Gray (rope type)

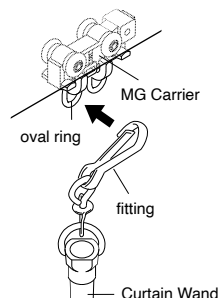

How to Use the Curtain Wand

Photo is the White (steel).

How to Install

Hook the fittings of the Curtain Wand to the oval ring of the MG Carrier.

*If the MG Carrier has two oval rings, hook the Curtain-hook to the first oval ring and the fittings of the Curtain Wand to the second oval ring.

Approximate Curtain Wand Length

Rail height position	2,200 ~2,400 mm	2,000 ~2,200 mm
Wand length	900 mm	700 mm

*In case used by a person with a height of 155 cm
