

Nexty

- Nexty—an advanced curtain track offering outstanding combination of quality, functionality, and design features.
- A curtain track that emphasizes refined design in addition to easy installation and outstanding functionality.
- Rich color variation can choose the one which of match the interior design.
- It can be used for wavy styles that bring out the natural texture of the fabric.

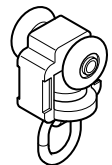

Smooth and quiet rollers

The key—
advanced roller function

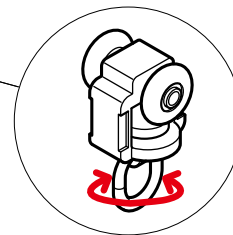

Noiseless Wheel-type Roller

Reduces the noise when opening and closing the curtain.

Nexty Roller

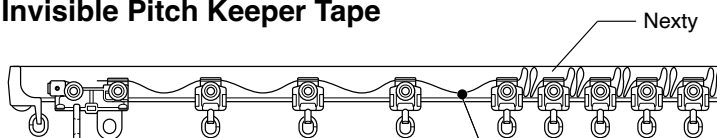

Nexty Rollers give beautiful expression to curtain folds

Freely revolving eye bolts allow curtain folds to neatly settle into each other.

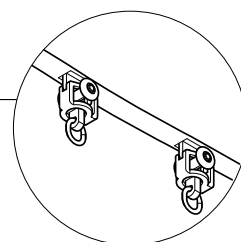

Smart Wave Curtain System

Invisible Pitch Keeper Tape

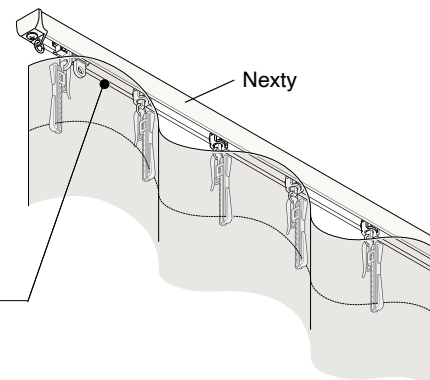

Invisible Pitch Keeper Tape

By connecting the roller and the pitch keeper tape, it can create a beautiful curtain wave.
The pitch keeper tape fits inside the track for a clean look.

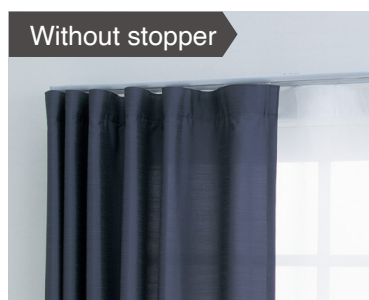

Pitch Keeper Tape

Nexty

Curtain Stopper (Option)

Without stopper

With stopper

Holds the curtain in place wherever the Curtain Stopper is set.

The Curtain Stopper (PAT.P) makes it possible to keep curtains open to their widest extent. Even curtains that tend to close because of the material of the curtain fabric.

*Ceiling attachment is impossible.

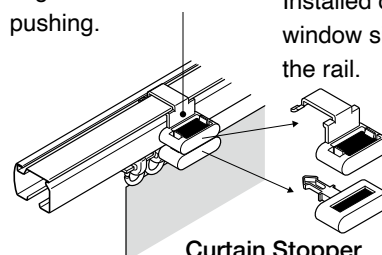

Curtain Stopper

How to Install Curtain Stopper

Adjust to the desired location by placing a finger here and pushing.

Curtain Stopper (Rail side)
Installed on the window side of the rail.

Curtain Stopper (Magnet Carrier side)
Installed on the window side of the Magnet Carrier.

End Cap M—Curtain returns that excel by design

Walnut

Return specifications include designs that shut out external light. Cap M come in two colors—silver and pearl beige.

Pearl Beige

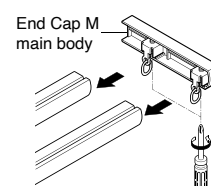

With the End Cap M design, the end cap is installed by inserting from the front. That means easy rail installation even right up against a wall or air conditioner.

*Rail must be installed 6 mm (.24") from the back wall.

How to Install End Cap M

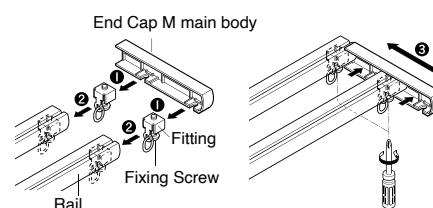

Attach End Cap M from the side of the rail.

* End Cap M is handed (left and right sides differ).

When side clearance is limited

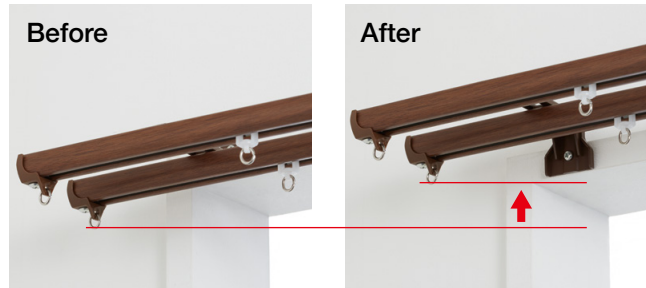

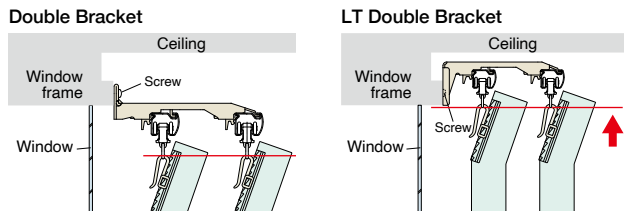

- ❶ Remove the bracket from the Cap Stop M main body.
- ❷ Insert the bracket into the rail.
- ❸ Insert the main Cap Stop M body from the front.

A versatile bracket lineup for any window installation

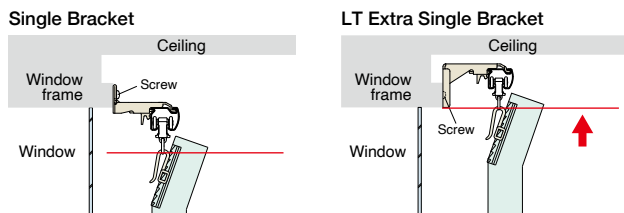

LT Double Bracket

Ideal for narrow spaces above window frames, while reducing light leakage.

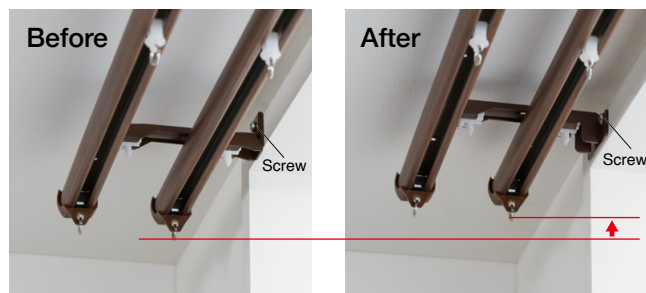

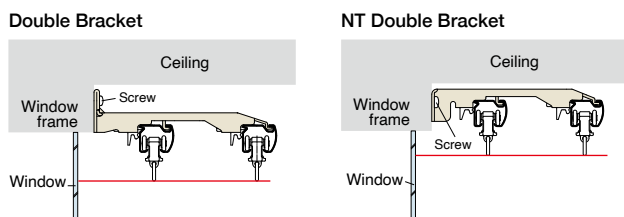

LT Extra Single Bracket

Ideal for narrow spaces above window frames, with a compact projection that avoids obstacles.

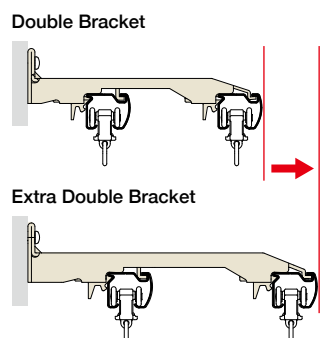

NT Double Bracket

Designed for mounting locations with insufficient backing height.

Extra Double Bracket

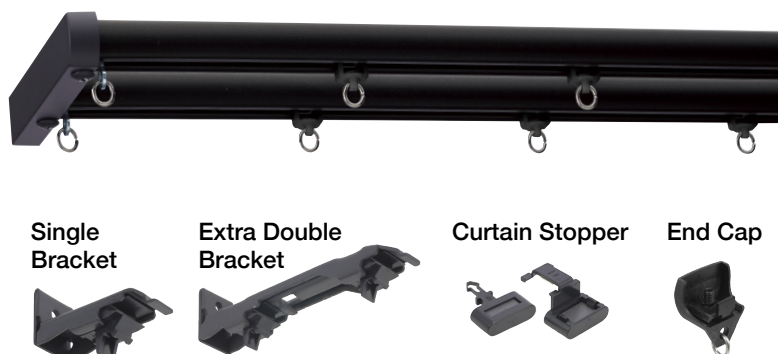

Prevents interference with window frames and curtains for a clean, seamless look.

The Pursuit of Pure Monochrome: Introducing “All-Black”

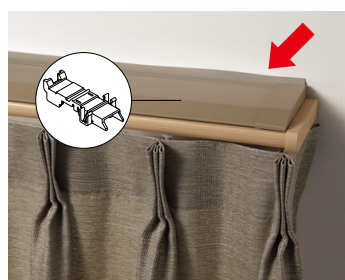

Go beyond conventional black.

Our new “All-Black” specification unifies every single component—including resin and metal parts—in a flawless black finish. Developed to meet the exacting standards of architects and designers worldwide, it eliminates visual noise to deliver a perfectly coordinated, minimalist aesthetic.

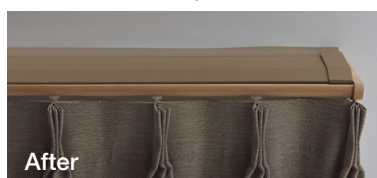

Cover Top II (Option)

Sept. 2016 RENEWAL

Color Lineup

Installing the Cover Top II stops air flow and external light from above curtains and helps to lower heating and cooling bills. Covers come in either light brown, medium brown or white. Installing a Cover Top II greatly reduces the amount of external light leaking in over the top and from around the sides of curtains.

*Cover Top II does not block all external light.

Multi Block

Multi Block is a convenient tool: by mounting the Multi Block to the existing curtain rail bracket, the installation of the blinds, etc. behind the curtain is possible. Also, reduce the hole opening in the wall. Various options around the window is spread.

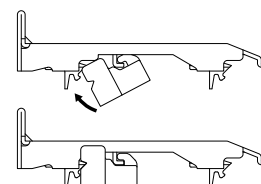

Allowable Products for Multi Block

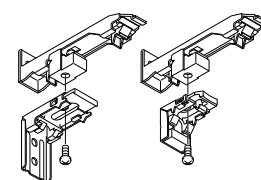

- Roman Shades
- Pleated Blinds
- Venetian Blinds

How to Install Multi Block

- 1 Mount the Multi Block to window side of the Nexty rail.

- 2 Attach the Bracket of window treatment products to the Multi Block and fix with the supplied screws from the bottom.

*1 Maximum load of Roman Shade is 5 kg (11lb). When ordering of twin, please specify the Ceiling Bracket.

*2 In the case of Pleated Blind, there is a limit of ratio, H:W, depending on the product type and screen.

*3 Maximum allowable area of the Venetian Blind is 7 m² (8.4 yd²).

*4 In accordance with the necessary bracket number of window treatment products, please arrange Multi-Blocks and Brackets of the Nexty.

*The weight of window treatment products should be manufactured up to 10 kg (22 lb) within the above-mentioned corresponding type size.

*If the curtain volume and style on the room side is thick, the Blind and Roman Shade are interfered sometimes when they are lifting up and down.

Available Bracket for Multi Block

Curtain Wand

To keep the Wave Style, the Nexty is available with a Curtain Wand that attaches to the leading MG Slider. It is easy to operate high curtains and thick/heavy curtains, and prevents stains and wrinkles because the curtain fabric is not directly touched.
