

Theatrac

Jul. 2021
RENEWAL

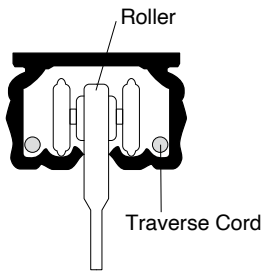

- The ideal rail for the heaviest blackout curtains used in gymnasiums and auditoriums.
- Manual, cord draw and motor operation are possible.
- Wheel-type rollers with bearings enable smooth, easy opening and closing.

Theatrac

Theatrac’s Unique Features and Applications

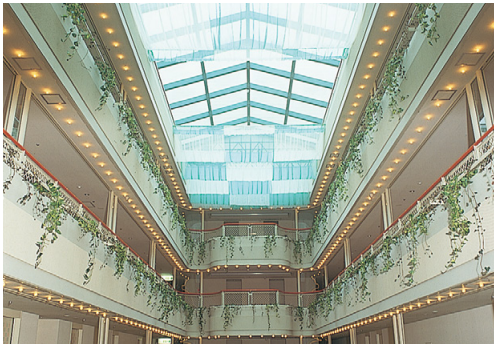

Rollers and cord pass through separate grooves.

Separate grooves for rollers and cord/wire permit a smooth and trouble-free operation.

Motor operation is possible.

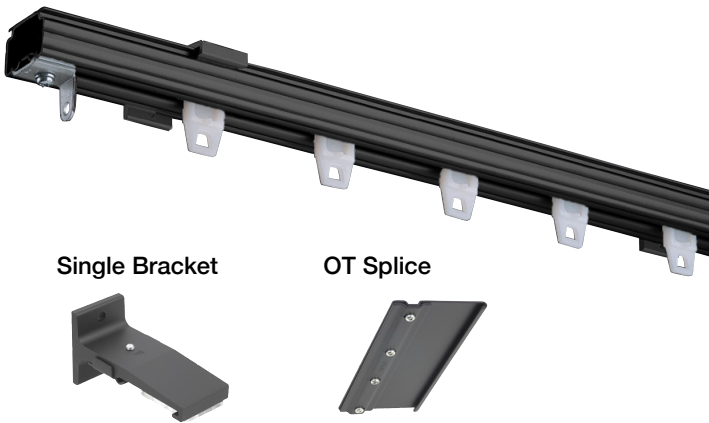

This is convenient when using wide curtains or curtains in a high location, and when opening and closing heavy curtains.

The Pursuit of Pure Monochrome: Introducing “All-Black”

Go beyond conventional black. Our new “All-Black” specification unifies every single component—including resin and metal parts—in a flawless black finish.

Developed to meet the exacting standards of architects and designers worldwide, it eliminates visual noise to deliver a perfectly coordinated, minimalist aesthetic.
