

Nexty

- Nexty—an advanced curtain track offering outstanding combination of quality, functionality, and design features.
- A curtain track that emphasizes refined design in addition to easy installation and outstanding functionality.
- Rich color variation can choose the one which of match the interior design.

Nexty

Nexty's Unique Feature

Smooth and quiet rollers

The key— advanced roller function

Noiseless Wheel-type Roller

Reduces the noise when opening and closing the curtain.

Nexty Roller

Nexty Rollers give beautiful expression to curtain folds

Freely revolving eye bolts allow curtain folds to neatly settle into each other.

Wave Style

The Wave Style brings out the feeling of naturally fabric.

*For more details about Wave Style, please refer to the catalog "Wave Style Components".

Curtain Stopper (Option)

The Curtain Stopper (PAT.P) makes it possible to keep curtains open to their widest extent. Even curtains that tend to close because of the material of the curtain fabric.

*Ceiling attachment is impossible.

End Cap M—Curtain returns that excel by design

With the End Cap M design, the end cap is installed by inserting from the front. That means easy rail installation even right up against a wall or air conditioner.

*Rail must be installed 6 mm (.24") from the back wall.

Return specifications include designs that shut out external light. Cap M come in two colors—silver and pearl beige.

Pearl Beige

LT Double Bracket / LT Extra Single Bracket

Double Bracket

LT Double Bracket

This bracket hangs the curtain higher than regular brackets. Because the top of the curtain is positioned higher than usual, very little light filters into the room. A screw hole is provided on the bottom of the bracket to enable easy installation on a window frame close to the ceiling.

NT Double Bracket

Double Bracket

NT Double Bracket

NT Double Bracket is suitable for the narrow space or in the case to be attached to the window frame, because the screw can be fixed just beside the Bracket body. Moreover, the curtain hanging position is up, reduce the light leaking.

Extra Double Bracket

Double Bracket

Extra Double Bracket

The Extra Double Bracket features wider spacing between rails. Additional space prevents interfering contact between curtain folds and window frame, and between the two sets of curtains.

Multi Block

Multi Block is a convenient tool: by mounting the Multi Block to the existing curtain rail bracket, the installation of the blinds, etc. behind the curtain is possible. Also, reduce the hole opening in the wall. Various options around the window is spread.

Allowable Products for Multi Block

- Roman Shades
- Pleated Blinds
- Venetian Blinds

Attachment of Multi Block

- 1 Mount the Multi Block to window side of the Nexty rail.
- 2 Attach the Bracket of window treatment products to the Multi Block and fix with the supplied screws from the bottom.

Cover Top II (Option)

Sept. 2016 RENEWAL

Installing the Cover Top II stops air flow and external light from above curtains and helps to lower heating and cooling bills. Covers come in either light brown, dark brown or white. Installing a Cover Top II greatly reduces the amount of external light leaking in over the top and from around the sides of curtains.

*Cover Top II does not block all external light.

- *1 Maximum load of Roman Shade is 5 kg (11lb). When ordering of twin, please specify the Ceiling Bracket.
- *2 In the case of Pleated Blind, there is a limit of ratio, H:W, depending on the product type and screen.
- *3 Maximum allowable area of the Venetian Blind is 7 m² (8.4 yd²).
- *4 In accordance with the necessary bracket number of window treatment products, please arrange Multi-Blocks and Brackets of the Nexty.
- *The weight of window treatment products should be manufactured up to 10 kg (22 lb) within the above-mentioned corresponding type size.
- *If the curtain volume and style on the room side is thick, the Blind and Roman Shade are interfered sometimes when they are lifting up and down.

Available Bracket for Multi Block
