Wave Style Components

- The Wave Style brings out the feeling of naturally fabric.

- With its tape and accessories, natural and elegant symmetrical waves are created.

- Wheel type Noiseless Rollers achieve super smooth and quiet operation.

Wave Style Components

Natural curtain waves

Wave Style creates a series of symmetrical waves in a combination with its tape and accessories.

Pleating Cord

The secret behind creating beautiful symmetrical waves. Pleating cord keeps waves evenly shaped, making the curtain rich and stylish.

WS Hooks + WS Rollers (Smooth and Silent)

WS Rollers swivel as a curtain is drawn. These unique WS Rollers and WS Hooks allow curtain fabric to form natural waves.

Drape the curtain as it is

No special coating or processing on the fabric is required for creating waves.

Wave Style Structure

•Even numbers of hooks used in all cases.

•Rollers spaced at 80 mm (3.2″) intervals to produce waves extending 60 mm (2.4″) from the center of the rail.

•Both left and right sides of curtains always end in troughs.

*To maintain beautiful waves, use the Curtain Wand for opening and closing.
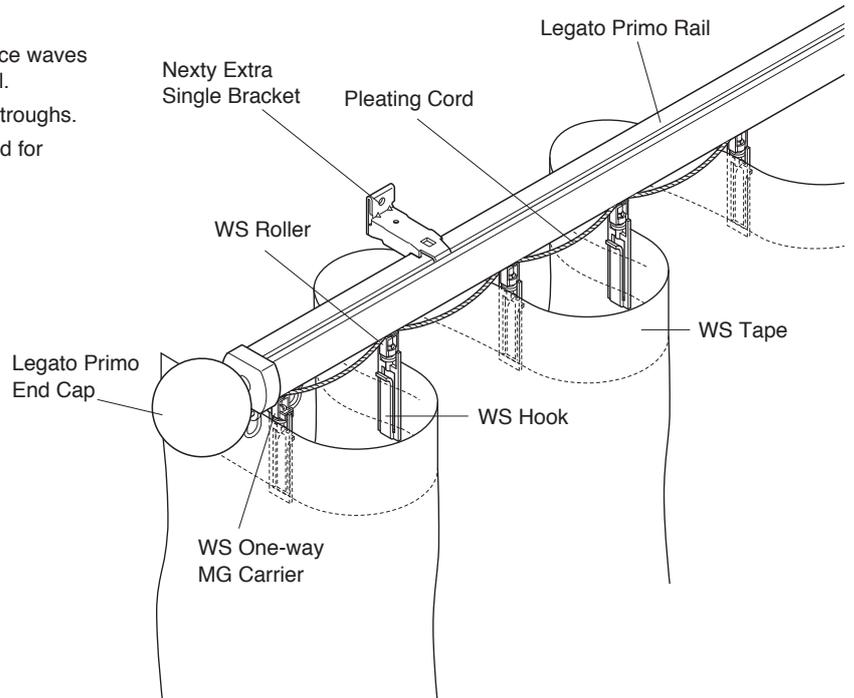

Notes: To make appealing wave style curtains, use WS Tape and Pleating Cord.
Fabrics with soft weft threads and stiff warp threads such as plain weaves are advisable.
(Black-out fabrics are not recommended.)

Legato Primo Rail
Nexty Extra Single Bracket
Pleating Cord
WS Roller
Legato Primo End Cap
WS Tape
WS Hook
WS One-way MG Carrier

Wave Hook Installation and Removal

Installation
Insert the tip of the WS Hook into the bottom of the WS Roller.

Removal
① While pushing the bottom of the WS Roller upward,
② Pull the WS Hook out.

*WS Tapes and Pleating Cords will stretch about 2% of their overall length.

Wave Style Product Lineup

Legato Primo

•Basic design with linear beauty and wooden taste.
•Versatile, elegantly designed rail.
•The ability to select from a wide variety of End Caps and combine them with optional parts significantly enhances design flexibility and functionality.
