

Motorized Roller Blind

## Mytec AT-K

- Motorized roller blind with ultra-quiet operation.
- Synchronos operation enables perfect alignment even side by side units.
- The small gap (14 mm per side) between the screen and main body.
- The snap bracket is available for easy installation and removal.

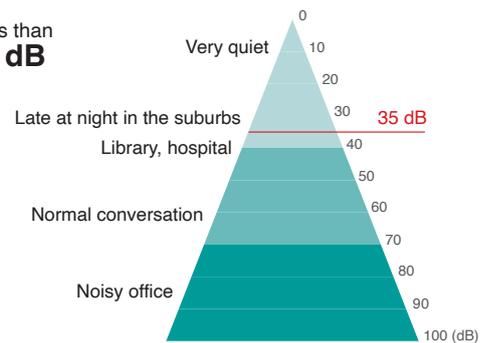

# Mytec AT-K

## Mytec AT-K's Unique Features

- The motorized Roller Blind, Mytec AT-K operates noiselessly. (35 dB or less in a no-load state).

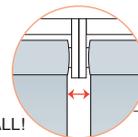

Less than **35 dB**

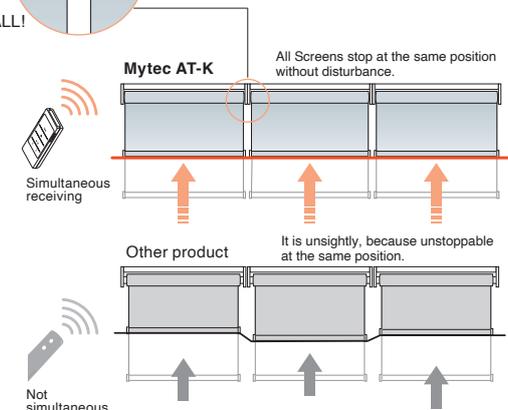

- The Controller and Infra-red Remote-control Receiver are built into the Set Bar for high visual appeal.

- The small gap (14 mm per side) between the screen and main body simplifies the design.

dB: A unit of loudness. To the human ear, a reduction of 10 dB is perceived as an approximately 50 percent reduction of loudness.

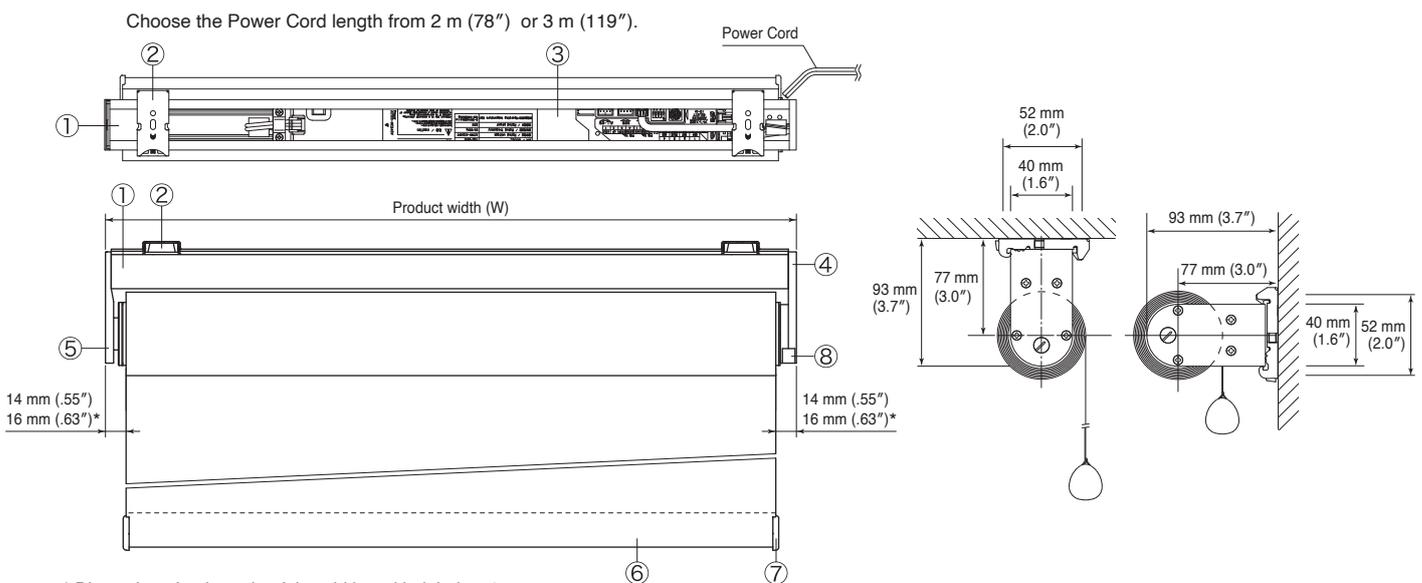

- Synchronized operation—When operating shades of the same height side by side, each shade synchronizes in the same height and speed.

- Less than 25 W power consumption per unit.
- The main unit is easily installed with the snap bracket.

## Structure Drawing

### Product View

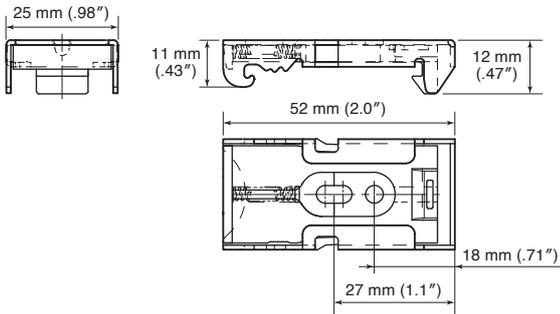

\* Dimensions for the ratio of the width and height is 1:3 or more.

### Components and Materials

No.	Components	Material
①	MTAT Set Bar	Aluminum
②	MT03 Bracket	Steel, Molded resin
③	MTAT Main Controller	—
④	Side Holder Receiver Side	Steel, Molded resin

No.	Components	Material
⑤	Side Holder	Steel, Molded resin
⑥	MT03 Weight Bar	Molded resin
⑦	MT03 Weight Bar Cap	Molded resin
⑧	Infra-red Remote-Control Receiver	Molded resin

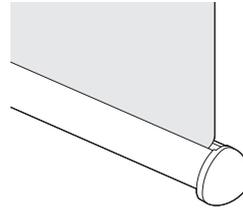

Bracket

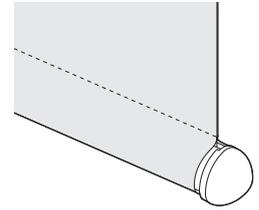

Product Width	Number of Bracket
1400 mm (55") or less	2
1405 mm (55") –2000 mm (79")	3
2005 mm (79") or more	4

Weight Bar

Non wrapping type

Wrapping type

Motor Specifications

Rated voltage	AC100–240V
Rated frequency	50/60Hz
Power consumption	During standby 0.5W During operation 25W
Operating voltage	DC12V

Operating current	1mA
Rated frequency	28.0rpm
Working temperature range	0–50°C (No condensation)
Rated time	Continuous operation 2 minutes

Allowable Size

Width	500–2500 mm (20–99")
Height	500–4500 mm (20–178")
Ratio (W:H)	1:8 (limit)

Product Weight

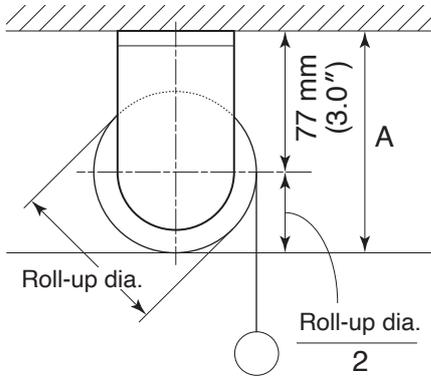

$$\{(1.05 \times \text{Product width (mm)}) / 1000\} + 0.8 \text{ (kg)}$$

\*Depending on the screen weight and material.

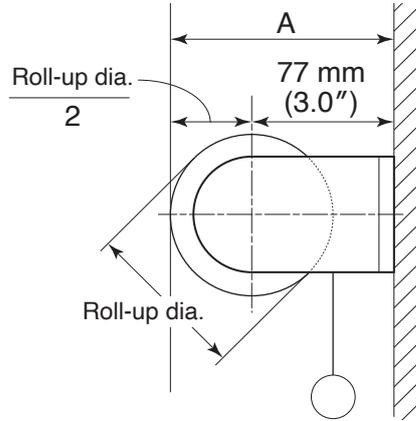

Typical Roll-up Diameter

Ceiling attachment

Wall attachment

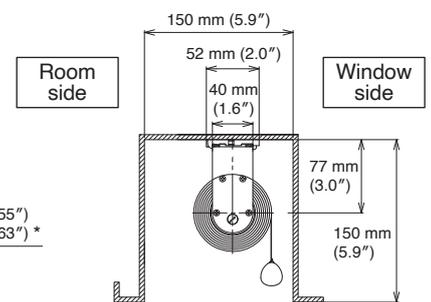

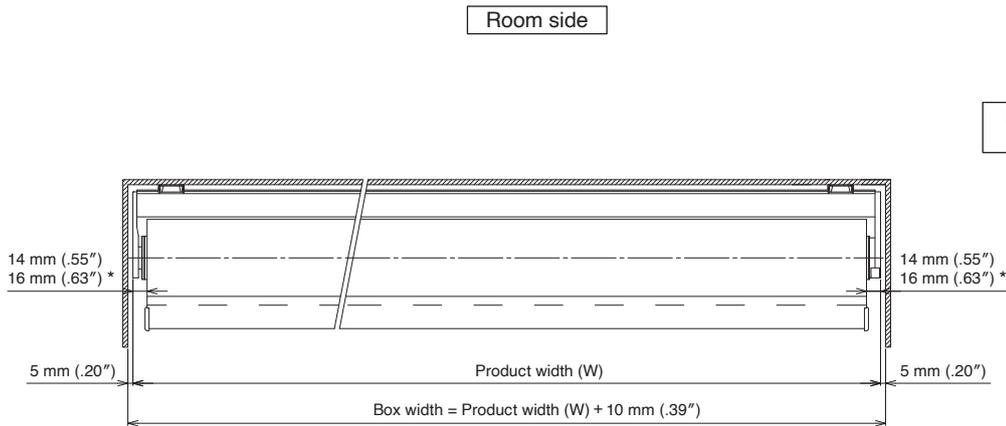

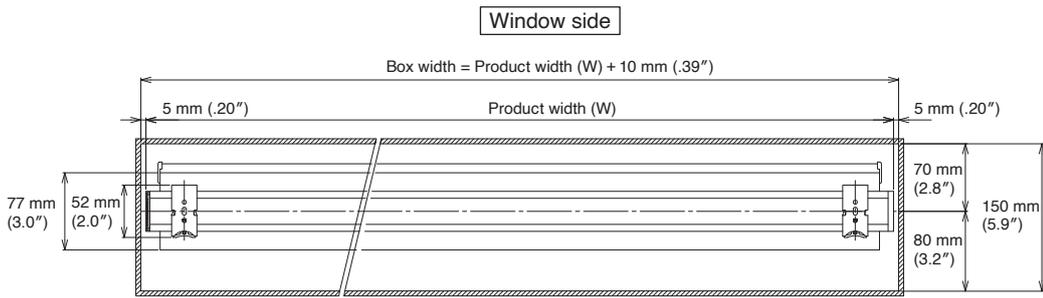

$$A = 77 + \frac{\text{Roll-up dia.}}{2}$$

## Power Supply Branch Cords and Power Joint Cords

Power can be supplied to multiple products by joining the power supply from one power supply (outlet) at the time of a continuous window.

There is no need to prepare multiple outlets, so they can be easily installed.

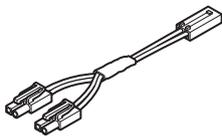

Up to 10 units can be connected, and the distance between products can be up to 3,000 mm.

Installation Diagram (For two units, the end product and the leading product will be used.)

### Mytec AT Power Supply Branch Cord

(Used when supplying multiple power supplies from one outlet)

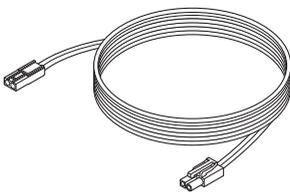

Product Name	Necessary Number
Mytec AT Power Supply Branch Cord	Number of consolidating products - 1 unit

\*Please order with the product itself.

\*Separately, order the power joint cord according to the required length.

### Mytec AT Power Joint Cord

(Used as a crossover wiring between the main unit, when using the power supply branch cord is used)

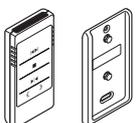

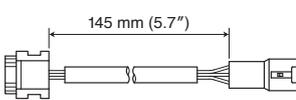

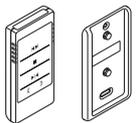

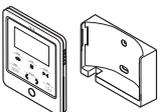

Product Name	Item Code	Necessary Number
Mytec AT Power Joint Cord 1300	30017586	Number of consolidating products - 1 unit
Mytec AT Power Joint Cord 2300	30017587	
Mytec AT Power Joint Cord 3300	30017588	

\*Select the required cord length depending on the product width.

#### Guide to the length of the Power Joint Cord

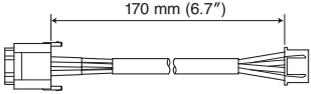

Distance between Products	Power Joint Cord
1,000 mm (39") or less	Mytec AT Power Joint Cord 1300
2,000 mm (79") or less	Mytec AT Power Joint Cord 2300
3,000 mm (118") or less	Mytec AT Power Joint Cord 3300
